✓ empowered by **ARC-Institute.com** | Marketing financed preferential price*

**Preferential price sponsored by ARC 390 € normal price each Serious Business Game Licence*

Egy oldalas összefoglaló: a játékszabályok

MARS Quick-Starter-Guide

GOAL

The winner is the player and, or team that builds the largest colony with the most colonists.

Game rules

1. There are each day the possibility to play several turns.
2. Each participant can play each week up to 10 turns, lectures.
3. As a level playing field, all teams act in the serious business game MARS EURO 2021 Audit Championship.

COLONISTSS

Colonists need resources to survive. Get resources by building facilities.

The amount of colonists who arrive at your colony each

turn depends on your level of happiness. Generate happiness by building happiness facilities.

The amount of colonists who remain in your colony is limited by your scarcest resource. Keep the level of different resources balanced.

CyberMoney AND QUESTIONS

In each turn, you can earn CyberMoney (GCoins) in the Research Center. You need GCoins to build facilities.

How to earn GCoins?

- Answering questions.
- Creating knowledge questions.
- Detecting and disputing wrong knowledge questions.
- Debating on disputed knowledge questions.

When you dispute a question, you open a debate so that the community can decide whether it is wrong or not.

The questions should be about the training topic defined for the business game.

ATTENTION: if one of your questions is disputed because it is outside the training scope, incorrect or inappropriate, you will lose a GCoins!

FACILITIES

Build facilities by clicking on land areas without mountains.

Improve/evolve facilities already built to increase their productivity.

Two facilities of the same type, built together, produce twice as much.

RANKING AND AUDIT CHALLENGES

Go to the ranking using the satellite (button) to:

- View the ranking.
- Observe other colonies.
- Challenge other players.

You can remove facilities from other colonies by launching a challenge. Visit a colony and select the facility you want to snatch. The player who answers the most questions in the least amount of time wins the AUDIT CHALLENGE.

CAREFUL! If you launch a challenge and lose, you will also lose GCoins.

You can challenge and be challenged a maximum of 2 times per session, starting with round 2.

Use challenges to slow down the growth of other colonies. Choose interlinked buildings to achieve greater impact.

TURNS AND SESSIONS

Next session
06:05:51

The game is divided into turns. In each turn, the amount of colonists arriving to your colony will match your happiness level, and the amount who stay will depend on your resources.

You can earn GCoins in each turn to invest in your colony.

The period of time in which you can access the business game to make your decisions is called a 'session'. Each session can have several turns.

After you finish all the turns in a session, you must wait for the next session to continue playing.

ANTIMATTER

Use antimatter to evolve facilities to the highest level.

Get antimatter by:

- Voting with 'likes' in the questions you answer.
- Creating quality questions that receive many 'likes'.
- Disputing incorrect or inappropriate questions. Careful! You will be penalized if you dispute correct questions.
- Representing the correct assessment in the debates.

A BEEB GYIK-jai 😊

FAQ | Euro Audit Championship 2021

1. **How does the national championship in work in general?**

There are 3 award categories:

- 1) The 3 most-valuable players, i.e. the 3 best in the individual competition.
- 2) The 3 best teams in Hungary
- 3) The best 11 participants form the Hungary national team for the European Audit Championship 2021 on September 17/18/19, 2020

2. **Can I participate as an individual participant without a team?**

Yes, you can always just sign up as an individual.

3. **How many people are a team in the national championship?**

The team competition in Hungary is x people per team. Has to be decided by IIA Hungary, and depends on the average size of the internal audit departments in Hungary, e.g. Austria are 4 participants per team, Albania are 3 participants per team, Switzerland are 5 participants per team, UK are 7 participants per team.

Még több GYIK 😊

4. **What happens if I have 14 employees and they would all like to participate?** (example with 4 per team)
Here you can form 3 teams of 4 people. Then there are two possibilities we offer like other countries also a team pool. I.e. the two available employees are drawn with 2 other employees by random quotient. Or alternatively play only for themselves in the individual competition.
5. **Can I participate in both individual and team competition?**
If you register as a team, you automatically participate in the individual competition as well.
6. **What are the technical requirements?**
You need only internet access and an internet browser to participate. Optimally Google Chrome, since the performance is best.
7. **When will the national Hungary championship take place?**
This could be according to your email for example, start is on April 12 and big finish is on May 07, 2021.
8. **Do I have to attend the Audit Championship at a certain time?**
No, you can participate completely time and location independent, when it suits you best, whether in the morning at 8:00 or after lunch or in the evening on the sofa. There are 10 training levels per week.

És még pár GYIK 😊

9. **How much CPE can I achieve if I participate?**

A total of 24 CPE is available to you if you participate.

10. **How much time is that per week?**

You can train at any time in hop-on and hop-off, i.e. you can train once for 10 min and the other time you can continue training at the last place for 1,5h. Per week there are 6 CPE (1 CPE ~ 50 min.), i.e. per week approx. 5 training hours.

11. **What is the cost per participant?**

Participation is 95,- Euro plus VAT from Hungary.

12. **What auditing topics will be implemented in the gamified training?**

Topics covered in the training include: Risk Assessment Know-how, Operational Audit Techniques, Sampling or Process Audit, Audit Quality Gates, Quality Assurance and Improvement, Strategic Audit Development, Audit Engagement Management, Audit Documentation and Referencing Techniques, Audit Interview Techniques, Audit Report Writing.

NATIONAL QUALIFYING CHAMPIONSHIP HUNGARY

Save-the-Date

1. Start 12. April | Amazing Finish 7. May 2021
2. ONE Team In Hungary = 3 Auditors

To be honest, I thought computer games is not really my thing, but having started playing the Mars Audit Game, after a couple of „seasons“ I found myself counselling the days for the start of the new one. It is fun and good learning at the same time, with a third layer on top: trying to choose the right strategy to get ahead. Recommended for all internal auditors.

Dr. Márton Gajdos | President of IIA Hungary, CIA, CISA, CFE
